Allergy and Immunology

Professional Description

An allergist-immunologist is trained in evaluation, physical and laboratory diagnosis, and management of disorders involving the immune system. Selected examples of such conditions include asthma, anaphylaxis, rhinitis, eczema, and adverse reactions to drugs, foods, and insect stings as well as immune deficiency diseases (both acquired and congenital), defects in host defense, and problems related to autoimmune disease, organ transplantation or malignancies of the immune system. As our understanding of the immune system develops, the scope of this specialty is widening.

Training programs are available at some medical centers to provide individuals with expertise in both allergy/immunology and adult rheumatology, or in both allergy/immunology and pediatric pulmonology. Such individuals are candidates for dual certification.

Source: American Board of Medical Specialties, *Guide to Physician Specialties*

A certified specialist in allergy and immunology is a physician who previously has passed the certification examination of the American Board of Internal Medicine (ABIM) and/or the American Board of Pediatrics (ABP) with additional certification by the American Board of Allergy and Immunology (ABAI), a Conjoint Board of the ABIM and the ABP. Diplomates of the ABAI have detailed knowledge of the underlying pathophysiology and the diagnosis, treatment, and prevention of allergic diseases such as allergic rhinitis, allergic asthma, urticaria, anaphylaxis, hypersensitivity pneumonitis, atopic and contact dermatitis, and allergic gastrointestinal disorders, as well as comparable clinical problems without an apparent allergic etiology or component such as vasomotor rhinitis, nonallergic asthma, and idiopathic and/or hereditary forms of urticaria and/or angioedema. Diplomates also have expertise in the management of pulmonary complications of certain of these diseases.

Diplomates of the ABAI also possess advanced understanding of the biology of inflammation, immunochemistry, immunobiology, and pharmacology and experience in the application of this knowledge to the diagnosis, management, and therapy of immunologic diseases. This includes inborn or acquired defects of host resistance, autoimmune diseases, bone marrow and solid organ transplantation, gene replacement therapy, adverse drug reactions, and related conditions. Diplomates have demonstrated to the satisfaction of their peers that they possess the general qualifications specified and are ethical and humanistic practitioners of medicine.

Source: American Board of Allergy and Immunology

Prerequisites; Length of Training

Prior completion of internal medicine or pediatrics program; length of accredited programs is 2 years.

Subspecialties

No subspecialty programs accredited by the Accreditation Council for Graduate Medical Education; no subspecialty certificates offered by the ABAI. The ABAI, however, does offer formal special pathways for physicians seeking dual certification in allergy/immunology and pediatric pulmonology; allergy/immunology and pediatric rheumatology; and allergy/immunology and adult rheumatology. Additional information regarding special pathways is available upon request to the ABAI.

Specialty/Subspecialty Information for Allergy and Immunology**Data**

Unless otherwise noted, all data are for 2008.

Table 1. Allergy and Immunology Programs

Number of accredited programs	73
Program Data	
length of accredited training	2
Minimum number of prior years of GME required	3
Offers graduate year 1 positions, available immediately upon medical school completion	No
Average number of interviews for program year 1 positions	12.0
Percent new program directors, 2007-2008 academic year (source: ACGME)	18.3%
Residents/Fellows	
Total number of active residents/fellows	276
Average number of residents/fellows per program	3.8
Average percent female	55.1%
Average percent international medical graduate (IMG)	14.5%
Program Faculty	
Average number of full-time physician faculty	7.8
Average number of part-time physician faculty	2.1
Average percent female full-time physician faculty	25.0%
Average ratio of full-time physician faculty to resident/fellow	1.2

Table 2. Data for Allergy and Immunology Programs Listed in FREIDA

Number of programs providing data	23
Work Schedule (Program Year 1)	
Average hours on duty per week	44.3
Average maximum consecutive hours on duty	14.4
Average days off duty per week	1.6
Moonlighting allowed within institution	56.5%
Night float system	8.7%
Offers awareness and management of fatigue in residents/fellows	91.3%
Educational Setting (Program Year 1)	
Average hours/week of regularly scheduled lectures/conferences	5.1
Average percent of training in hospital outpatient clinics	49.5%
Average percent of training in nonhospital ambulatory care community settings	16.1%
Educational Benefits	
Curriculum on management of tobacco dependence	21.7%
Program to assess/enhance medical professionalism	87.0%
Debt management/financial counseling	43.5%
Formal program to develop teaching skills	73.9%
Formal mentoring program	73.9%
Formal program to foster interdisciplinary teamwork	26.1%
Continuous quality improvement training	82.6%
International experience	13.0%
Resident/fellow retreats	39.1%
Off-campus electives	69.6%
Hospice/home care experience	0.0%

Specialty/Subspecialty Information for Allergy and Immunology

Cultural competence awareness	73.9%
Instruction in medical Spanish or other non-English language	8.7%
Alternative/complementary medicine curriculum	13.0%
Training in identifying and reporting of domestic violence/abuse	43.5%
MPH/MBA or PhD training	39.1%
Research rotation	95.7%
Educational Features	
Offers additional training or educational experience beyond accredited length	63.2%
Offers a primary care track	0.0%
Offers a rural track	0.0%
Offers a women's health track	0.0%
Offers a hospitalist track	0.0%
Offers a research track/nonaccredited fellowship	17.4%
Offers an other track	8.7%
Resident Evaluation	
Yearly specialty in-service examination required	95.6%
Patient surveys	73.9%
Portfolio system	78.3%
360 degree evaluations	91.3%
Objective structured clinical examinations (OSCE)	8.7%
Program Evaluation	
Program graduation rates	65.2%
Board certification rates	100.0%
In-training examinations	95.7%
Performance-based assessments	34.8%
Employment Policies and Benefits	
Part-time/shared positions	4.3%
On-site child care	43.5%
Subsidized child care	4.3%
Allowance/stipend for professional expenses	73.9%
Leave for educational meetings/conferences	78.1%
Moving allowance	4.3%
Housing stipend	0.0%
On-call meal allowance	30.4%
Free parking	43.5%
PDA's	17.4%
Placement assistance upon completion of program	26.1%
Cross coverage in case of illness/disability	69.6%
Compensation and Leave (Graduate Year 1)	
Average resident/fellow compensation	\$50,990
Average number weeks of vacation	8.0
Sick days (paid)	21.6
Maximum number of paid days for family/medical leave	36
Maximum number of unpaid days for family/medical leave	55
Major Medical Benefits	
Major medical insurance for residents	100.0%
Major medical insurance for dependents	87.0%
Outpatient mental health insurance	87.0%

Specialty/Subspecialty Information for Allergy and Immunology

Inpatient mental health insurance	82.6%
Group life insurance	82.6%
Dental insurance	82.6%
Disability insurance	73.9%
Disability insurance for occupationally acquired HIV	60.9%
Medical insurance coverage begins when starting program	82.6%
